

CREATE YOUR RETAIL UNIVERSE WITH OASIS

Agave introduces OASIS, the ultimate Point-of-Sale for Retail Payments.

AGAVE has partnered with **Ingenico®**, the leader in global terminal hardware, to deliver an omni-channel experience to every Retail merchant.

OASIS™, Agave's fully integrated POS platform, allows Small and Enterprise businesses to create a retail environment using Desktop, Lane, Portable, Handheld, and Mobile terminal devices all connected through a single platform.

Merchants and Consumers can feel completely safe and secure with support for Contactless and Mobile Wallets.

OASIS makes managing payment activity easy with remote access online via Agave's Virtual Terminal.

ENGINEERED TO MAKE INTEGRATION EFFORTLESS

OASIS removes the hassle of EMV certifications & makes integrating your POS easy.

EMV and PIN Debit processing can quickly be integrated to any proprietary POS system by simply using OASIS's JSON API. No Middleware is required.

Multiple Processors are supported with OASIS and every terminal device connects directly to Agave's Platform to centralize payment flow and management.

OASIS uses P2PE and PCI PTS 5 level compliance to bring the highest security and data protection to every transaction being processed.

Devices support multiple languages and offer high contrast options for visually impaired.

PORTABLE, HANDHELD, & MOBILE
